Summarized Customer Notes From Apr 12 2024 Check-Ins

- The customer wants a difference between public pages and SIG member pages.
- Customers don't need a Social media website so they don't want Add Friend functionality.
- Map functionality shouldn't be on the top of the site.
- Customers don't understand the concept of having different groups and blogs on the sites.
- Activity shouldn't be the first in the menu bar.
- SIG members like our site's group icon.
- They also like a privacy option for the Profile.
- Like the design and easy-to-use functionality of the site.
- Increase the size of the logo on a navbar.
