Project Name: Special Interest Group Portal

Project Team: Team Grapes

Document: Customer Notes

<u>Summarized Customer Notes From Mar, 2024 Check-Ins</u>

- Like the functionality in the members page such as overview of groups, and profiles of different users on the members page based on groups.
- Customers like the functionality of having different groups from our last customer presentation. So, In the next meeting, we will create different mini-groups based on the research interests of customers.
- Customers find the option of having a current online members list and numbers interesting on the website.
- Update the group title name on members page from Humanity to Humanities.
- Customers want to add links to published research papers, for example Google Scholar.
- Good design ideas such as good use of metaphor, color scheme, layout, natural mapping and signifiers.
- We need to add recommendations in the search filter of members.
- Focus on finding images from research humanities, communities, social and sciences domain.
